Sneha Sharma

UX DESIGNER & RESEARCHER · PRODUCT DESIGN · SYSTEMS THINKING

design.snehasharma@gmail.com · +91 98285 20215 · snehadoesux.com · LinkedIn

I design experiences the way architects design buildings: understand the structure before touching the surface, so what people feel is clarity, not effort.

ABOUT ME

I'm a Senior UX Designer with 6+ years across digital product and architectural practice. I specialise in platform design, systems thinking, and behavioural research — and I bring a spatial, structure-first lens to digital experience that most designers don't. I've taken products from ambiguous brief to scalable solution across enterprise platforms, B2B tools, and consumer products, and I care deeply about design that makes complex things feel quietly easy.

UX WORK EXPERIENCE

Lollypop Design Studio

August 2023 — Present

ASSOCIATE SENIOR UX DESIGNER

JK Cement — Enterprise Platform Consolidation Platform Design · Design Systems · Enterprise UX · Workflow Optimisation

- Took full ownership of experience design for a platform unifying 9 fragmented applications — sales, finance, loyalty, supply chain — into one coherent product serving thousands of dealers and stakeholders.
- Built the interaction model and design system from scratch with scalable component logic and cross-functional workflows adaptable across verticals.
- Reduced cross-functional friction by an estimated 35% and meaningfully cut onboarding time for new user cohorts.

ACT Smart WiFi — Product Design Product Design · Systems Thinking · UX Strategy · Usability Testing

- Owned strategy, IA, and end-to-end design for ACT's smart WiFi product — device management, usage control, and network security in a single unified interface.
- Translated dense backend logic into a layered model that progressively surfaced controls based on user intent, making advanced settings accessible across a wide user spectrum.
- Achieved ~30% reduction in task completion time across iterative usability testing rounds.

Zinnov — Decision Intelligence Platform B2B Platform Design · Information Architecture · UX Strategy

- Redesigned IA and UX strategy for a decision intelligence platform used by global capability leaders, rethinking how research data was discovered, filtered, and acted upon.
- Structured discovery and validation flows so complex, multi-layered datasets felt navigable — built for senior stakeholders making high-stakes calls.
- Decreased time-to-insight by 40% through IA restructuring and contextual navigation improvements.

Green SM — Ride-Hailing User Research Behavioural Research · Competitive Analysis · Insight Mapping

- Ran a full research cycle across Bangalore and Chennai — 30+ in-depth interviews mapping behavioural patterns — paired with end-to-end competitive benchmarking of 6 platforms.
- Synthesised findings into a structured insight framework that directly shaped product priorities and compressed the research-to-design handover cycle.

Proof of Concept Work — Peak XV (Sequoia), Banglalink, Surya Lighting, Sleep Number, G42 Concept Design · Behavioural Design · Innovation Strategy · Stakeholder Pitching

- Designed and delivered 5 strategic POC experiences across fintech, telecom, lighting, health tech, and AI — translating speculative briefs into testable product directions through behavioural principles and structured concept narratives.
- Achieved an 80% client conversion rate, with stakeholders using the artefacts to secure internal alignment and move projects into active development.

ARCHITECTURE WORK EXPERIENCE

Studio Ardete

Nov 2021 – Jul 2023

ARCHITECT & OPERATIONS HEAD

Space Designing · Sustainable Strategy · Project Management · Content Writing · Social Media Management

- Drove design and operations across award-nominated projects; created pitch decks for FOAID, ASHRAE, and ACETECH design awards; published on Arch Daily and Architectural Digest.
- Spearheaded a community initiative at Purwa Village — conducting primary research and shaping sustainable strategy across biodiversity, education, and natural building.

Hunnarshala · FM Garden City · SD Architects · MO:FA · The Traditionals · Hafeez Contractor

2017 – 2021

ARCHITECT | LEAD DESIGNER | FELLOW

Natural Building · Sustainable Design · Site Supervision · Construction Documentation · Stakeholder Management

- 4 years across residential, hospitality, institutional, and community projects — spatial systems thinking, stakeholder management, and construction documentation.
- Contributed to tender presentations for IIT Tirupati and GFC drawings for the Jio World Convention Centre, BKC Mumbai at Hafeez Contractor.

EDUCATION

Post Graduate Certification — Intelligent Interaction Design — 2023
Indian Institute of Science (IISc), Bangalore

Bachelor of Architecture (B.Arch) — 2014 – 2019
Aayojan School of Architecture, Jaipur
